

S2SS Program Overview

December 2018 – 121918

Purpose

1. Provide an overview of S2SS program

- What is it?
- How does it work?
- Benefit for our school?

2. Next Steps

Program Summary

- S2SS is launching in our schools
- S2SS teaches how to recognize and report at-risk behavior
- Students (& adults) submit tips via app, website and 24/7 crisis hotline
- All tips are triaged by certified crisis counselors and then emailed, texted and/or called back into the school / school district to act upon
- The school then investigates, assesses and intervenes (as needed) and closes the tip out to ensure all tips are reviewed and actioned
- Students and staff will be trained in person and/or via interactive video
 - Middle and high school students will be trained only
 - Adults K-12 in all school systems will be made aware of the program
- S2SS will also be embedded in student clubs and be featured in-school via awareness materials and other events to sustain the program

S2SS Overview

In a majority of violence and victimization acts, there are warning signs or signals given off

- 37% of threats of violence, bullying, etc. are sent electronically.
28% used social media
- 80% of school shooters tell someone of their violent plans. 69% tell more than one person
- Most mass shootings are planned for 6+ months
- Up to 70% of people who complete suicide tell someone their plans or give some other warning sign
- Youth display/present pathway behaviors / at-risk behaviors between the ages of 13-17
 - Creating a petri-dish or breeding ground in schools
 - Creating opportunities for early identification and intervention

However – these signs are not seen because youth (and the adults around them) do NOT...

- Understand or know how to recognize signs and signals
- Believe a threat to be true because “they would never say it publicly if they meant it”
- Want to be labeled, stigmatized and/or possibly physically threatened as a “snitch”
- Want to be “that kid” or “that parent” saying something
- Feel comfortable calling 911 or talking to a trusted adult
- Know who to tell or “believe that nothing will be done to help”
- Just choose to ignore the sign or signal thinking someone else will say something – bystander effect

Teaches middle and high school youth (and the adults around them) how to recognize warning signs and signals, especially within social media, from individuals who may be a threat to themselves or others and *Say Something* to a trusted adult, call 911 or use the S2SS [anonymous reporting system](#)

Submission Disposition / Status
Written Response in S2SS and
Indication of case being "open or closed"

WHAT are the anticipated reporting rates?

- 3%-6% of population trained will submit a tip once all students are trained and receive sustained updates - the number of tips in the first 48-72 hours will be run higher then flatten out
- Approximately 40-60% will be Life Safety Tips of which 10-15% will be very serious
- Suicide, suicide ideation, depression, anxiety, substance abuse, school violence, bullying/cyber-bullying and gang violence will likely be your top tip submissions
- Hoax or false claims are less than ½ of 1% -- with most being in-actionable submissions such as “clowns have red hair”

WHO owns the data? HOW is Anonymity Broken?

- All tip data is owned by the school system / district with student information being protected via state and federal laws
- If a tipster is suicidal / in crisis, state and federal laws allow anonymity to be broken (if feasible) to protect the well-being and safety of the individual (occurs <1/2% of all tips)
- If an individual abuses the system or breaks a state or federal law, the school system / district can request a court order to TRY and uncover anonymity.

Note: we will NOT break anonymity without a court order – there are no exceptions

HOW will S2SS be sustained?

- Imbed S2SS in existing school clubs or establish a new club
 - Activities, Call-to-Action, National Summit, Youth Board
- In-school collateral and materials

- Virtual or local School Outreach Coordinator to support the school and student club
- Annually train in-coming class/new educators and admin

WHAT will be overall impact and benefits?

- Educate on signs and signals – especially in social media – creating a well informed district and parents
- Reduction in violence, suicide and cutting, bullying, drug use and overall victimization with more students getting help
- Creates safer / healthier environment
