

Section: Narratives - Needs Assessment

Introduction

The findings of a recent study showed that there is a significant benefit to students who participate in out-of-school-time (OST) programs. In fact, the Return on Investment of Summer school Programs in Pennsylvania study determined that for every dollar invested in summer school programming for students there was a return of \$6.69 in potential benefits to students, including reduced rates for drop-outs, teen pregnancy, substance abuse, crime and delinquency ([Link PSAYDN.org](#)).

In accordance with the American Rescue Plan (ARP) Act and Pennsylvania Act 24 of 2021 (Act 24), the Pennsylvania Department of Education (PDE) will award approximately \$50,000,000 or one percent (1%) of Pennsylvania's ARP Elementary and Secondary School Education Relief (ESSER) State Reserve funds to support school districts, charter schools and cyber charter schools (collectively, LEAs) in the development and implementation of comprehensive after-school programs to address learning loss in response to the academic, social, emotional and mental health needs of students and subgroups of students impacted by COVID-19 public health emergency that supplement school programs and activities.

Act 24 requires that, when available, existing personnel shall be utilized by school districts, charter schools and cyber charter schools to staff programs and activities established with these grant funds.

Within 90 days of receipt of these allocations, school districts, charter schools and cyber charter schools must submit a three-part plan to PDE, that outlines the proposed use of the grant money, itemized by program and activity. This plan is part of a consolidated application that includes after-school programming, summer programming, and a comprehensive plan to address learning loss. The plan shall include:

- 1) A description of each program and activity
- 2) A narrative outlining the expected benefit of each program and activity
- 3) A budget for each program and activity detailing personnel and operating costs

PDE has developed the Accelerated Learning Toolkit, a significant cadre of resources and trainings, to support LEAs in the development of their plans. The Accelerated Learning Toolkit can be found [Link to Accelerated Learning Toolkit](#).

Section 1 - Needs Assessment: In this section, LEAs are asked to describe the impact of the pandemic on their students since March 2020.

Indicators of Impact

1. Describe how the LEA identified students for inclusion in a summer school program. Include a brief description of the indicators used in the decision-making process.

The summer school program will utilize students who are credit deficient due to being unsuccessful in the hybrid learning model and the students will be instructed and given assessment to not only remediate the credits lost, but also engage in recouping the skill set

that were lost during the pandemic. This will be done using assessment tools such as I-ready and other tools to see where the learning loss occurred and then engage them in meaningful instruction to recoup credits and regain skill sets.

Section: Narratives - Summer School Program Questions

Summer School Program Questions: In this section, LEAs are asked to describe the activities they have designed to provide summer school programming for their students.

2. Identify the target student-group for the summer school program. Will the focus be on academic growth, social and emotional wellness, or some other factor to support student growth? For each group, provide specific strategies that were used or will be used to identify and measure impacts.

Student Group	Area of Focus	Number of Students Served	Provide specific strategies that were used or will be used to identify and measure impacts
Children from Low-Income Families	Academic Growth	50	Students will be given instruction in areas to regain credits lost during the pandemic.
Children with Disabilities	Academic Growth	50	Students will be given remediation to recoup skills lost as well as gain skill sets from lack of face to face instruction.
Major Racial and Ethnic Groups	Academic Growth	50	Students will be given remediation to recoup skills lost as well as gain skill sets from lack of face to face instruction.
English Learners	Academic Growth	50	Students will be given remediation to recoup skills lost as well as gain skill sets from lack of face to face instruction.

3. Describe the evidence-based resources that will be used to support student growth during the

summer school program.

Completion of summer school courses in a satisfactory manner will be the main factor in supporting student growth. Other factors will include assessment data from I-ready and other programs such as Red Bird.

4. Describe the staff that will provide the summer school program (i.e., internal staff or outside resources).

Number of Staff Members	Internal/Outside Provider	Role
10	Internal Provider	instructors

a. The LEA assures it understands it is responsible to offer the work to its internal employees prior to engaging outside entities.

b. The LEA assures it understands it is responsible to ensure that all summer school program staff hold the appropriate certifications for the program that is being delivered.

5. How will the LEA assess the success of the summer school program? Please identify the tool, frequency of use, and expected results.

Tool Used to Evaluate Success	Frequency of Use	Expected Results
CAOLA	Daily	Students will complete modules with teacher assistant to engage in credit recovery for credits that were lost during the pandemic.
Curriculum Based Assessments	As needed	Students will show increased achievement.

6. How will the LEA engage families in the summer school program?

The LEA will transport students to and from the summer program and engage students in positive learning experiences through the use of ARP ESSER funds. The families will be given various technology tools to assist with learning and families will also be able to receive other supports throughout the summer.

Section: Budget - Instruction Expenditures

Instruction Expenditures

Budget
