

RESPONSIBLE ADULT DESIGNATION FOR A KINDERGARTEN STUDENT

Transportation Department

Safe and efficient transportation of every child is a primary goal of the District. The District requires a parent/guardian to accompany a kindergarten student to and from bus stops and to and from school buildings **at all times**. A parent/guardian may authorize another responsible adult to accompany, pick up or drop off a **kindergarten student at a bus stop**, by completing this form. A separate form must be completed for each kindergarten student and each time changes are made throughout the school year.

If a parent/guardian or an authorized adult listed below is not present to meet and accompany the kindergarten student at the designated bus stop, the driver is required to return the student to his/her school building. The parent/guardian will be responsible to pick up the child at the school building. If a kindergarten student is returned to his/her school building three (3) times, transportation privileges may be suspended.
